## CONTACT INFORMATION

-  johnbrindimazwewoh@gmail.com
-  Bambili
-  650146590
-  <https://www.linkedin.com/in/mazwewohjohnbrindi/>

## SKILLS

- Network Analysis (Wireshark, TCP/IP, HTTP)
  - Basic Routing and Switching (Cisco) ■
- Networking (LAN/WAN)
- SOC Analyst
  - Team collaboration and project management
  - Backend Developer

## SUMMARY

Security Lead and Cybersecurity Instructor with hands-on experience designing SOC frameworks, leading incident response, and developing team capability in threat detection and analysis at SEED. Founder of ZIGEX, driving product strategy and partnerships to connect students with internships, programs, and events in tech. Strengths include network traffic analysis (Wireshark), web application penetration testing, SOC monitoring, and collaborative leadership; currently pursuing a B.Eng. in Computer Engineering. And Experienced as a web developer.

## EXPERIENCE

### CEO & FOUNDER

**ZIGEX.** Bamenda | 2025

- Founded ZIGEX, a platform that connects students with opportunities such as internships, programs, and events in the tech sector.

### CYBER SECURITY INSTRUCTOR

**SEED.** Bamenda | 2025

- Designed and implemented a Security Operations Center (SOC) framework, enhancing organizational cybersecurity posture.
- Led training sessions for staff on SOC operations, threat analysis, and incident response protocols.

### PHYSICS TUTOR

**Model Initiative of Africa(MIA).** Bamenda | 2024

- Provided targeted instruction to students preparing for competitive entrance exams (concours) in physics.

## EDUCATION

### COMPUTER ENGINEERING

**National Higher Polytechnic Institute(NAHPI).** Bamenda | 2023 - Present

Currently pursuing a degree in Computer Engineering.

## PROJECTS

### 1. Local Area Network (LAN) Establishment

Successfully designed and established a robust LAN infrastructure to support organizational needs making use of TP-Link Switch, CAT5 Cables, a router and end devices

### Security Operations Center (SOC) Implementation

Developed and implemented a Security Operations Center using Wazuh as the Security Information and Event Management (SIEM) tool.

### Intrusion Detection/Prevention System (IDS/IPS) Implementation

Deployed Suricata as an IDS/IPS to monitor and protect the network from potential threats.

### Backend Lead at Zigex

Led backend development for Zigex.

## CERTIFICATIONS & COURSES

- Network Basics from CISCO Networking(2024)
- Ethical Hacker course from CISCO(2024)
- Certified Backend Developer SEED(2026)
